

the part	nerve
sphenoid bone	optic nerve "2"
ethmoid Bone	olfactory nerve "1"
mandible Bone	cranial nerve V "5"
servatus anterior	long thoracic
trapezius	11 th cranial
Deltoid	axillary
teres major	subscapular
pectoralis major	Lateral & medial pectoral

latissimus dorsi "swimmer"	latissimus dorsi
coracobrachialis	musculo-cutaneous
anterior compartment (arm)	musculo-cutaneous
posterior compartment (arm)	radial
space between piriformis and gemellus superior	sciatic
anterior compartment "muscles of the thigh"	Femoral
medial compartment "muscle of the thigh"	Obturator
posterior compartment "muscle of the thigh"	Sciatic
fibularis anterior	anterior tibial

fibularis posterior

posterior fibial

diaphragm

phrenic

medial epicondyle of the
distal end (humerus)

ulnar nerve / funny nerve

muscles of Facial
expression

Facial

muscles of mastication
supplied by: (4 muscles)

mandibular branch of
trigeminal nerve (cranial "5")

lateral rectus LR6
superior oblique SO4

Abducent (6th cranial)
Trochlear (4th cranial)

extraocular muscles supplied by: CN 3, 4, 6

Oculomotor (3th cranial)

sternocleidomastoid

spinal accessory (11th cranial)

digastric muscle (anterior belly)

mylohyoid (from mandibular
nerve)

digastric muscle (posterior belly)

facial

mylohyoid muscle

mylohyoid (from mandibular
nerve)

geniohyoid muscle	C1 fibers / 1 st spinal nerve / through hypoglossal nerve
stylohyoid muscle	facial nerve

All infrahyoid muscles are supplied by Ansa Cervicalis (C1,2,3) except Thyrohyoid which is supplied directly by C1 (through hypoglossal N.).

muscles of the tongue

hypoglossa (XII) nerve
12
