## Lab 7

# Muscles of Head, Neck & Trunk

related to the lumbar vertebrae

or posterior abdominal wall ↗

Quadratus Lumborum

شكلا مربعيا

\* في جزء من وراء  
Kidney

iliac crest

Right left

Iliacus

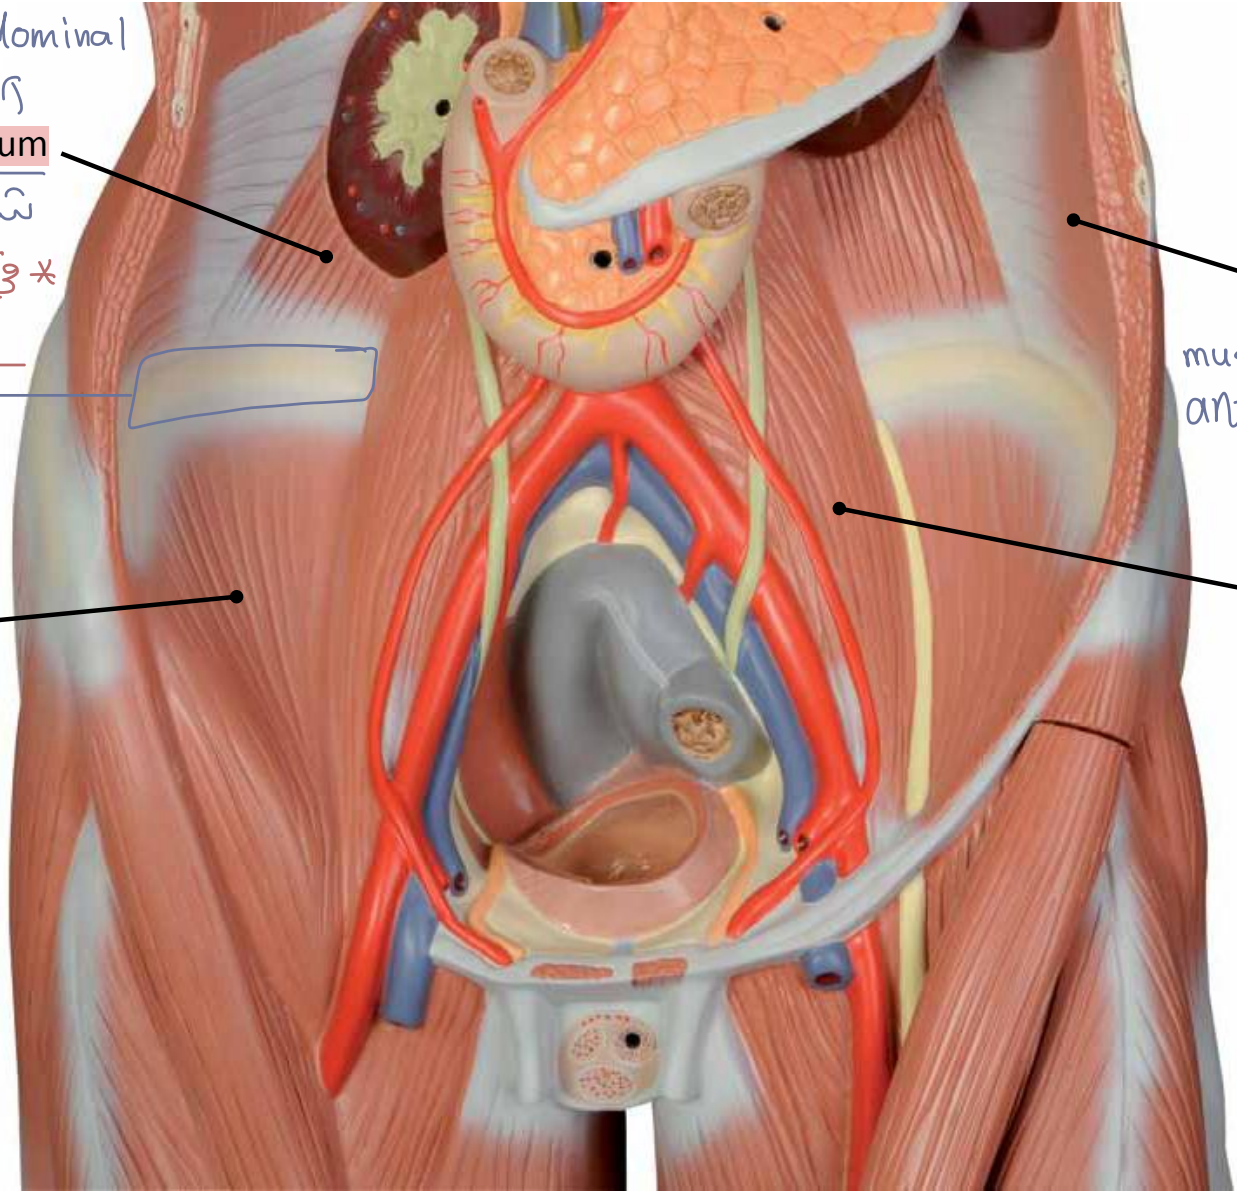

إلى أعلى من  
iliac fossa

\* iliac fossa  
directed  
medially

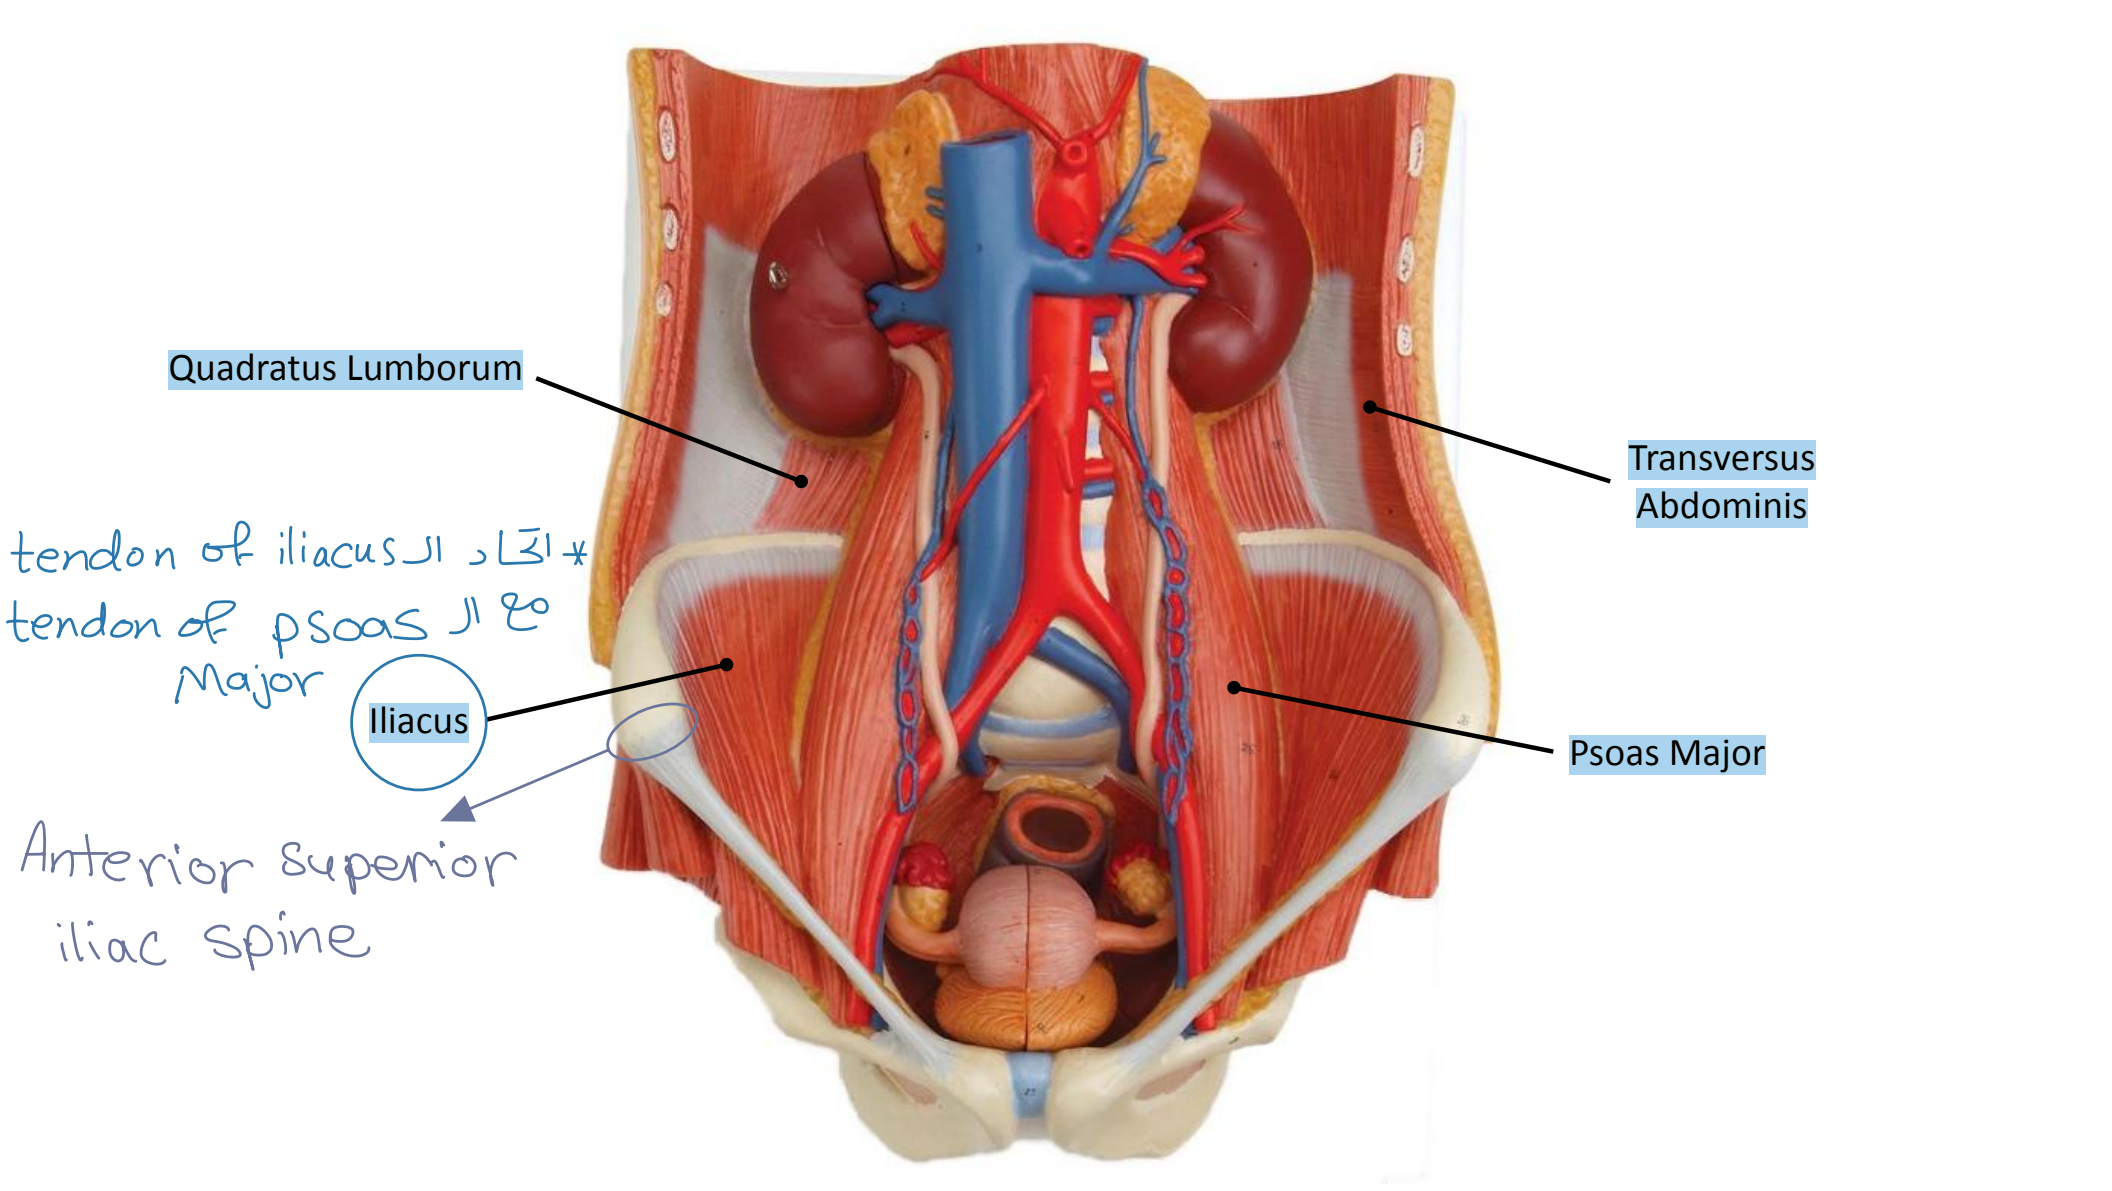

Transversus  
Abdominis

وحده من ال  
muscles of the  
anterolateral  
wall

Psoas Major

Quadratus Lumborum

Transversus Abdominis

Psoas Major

Iliacus

tendon of iliacus ۱۱ ۱۳۱ \*  
tendon of psoas ۱۱ ۱۴۰  
Major

Anterior superior  
iliac spine

Quadratus Lumborum

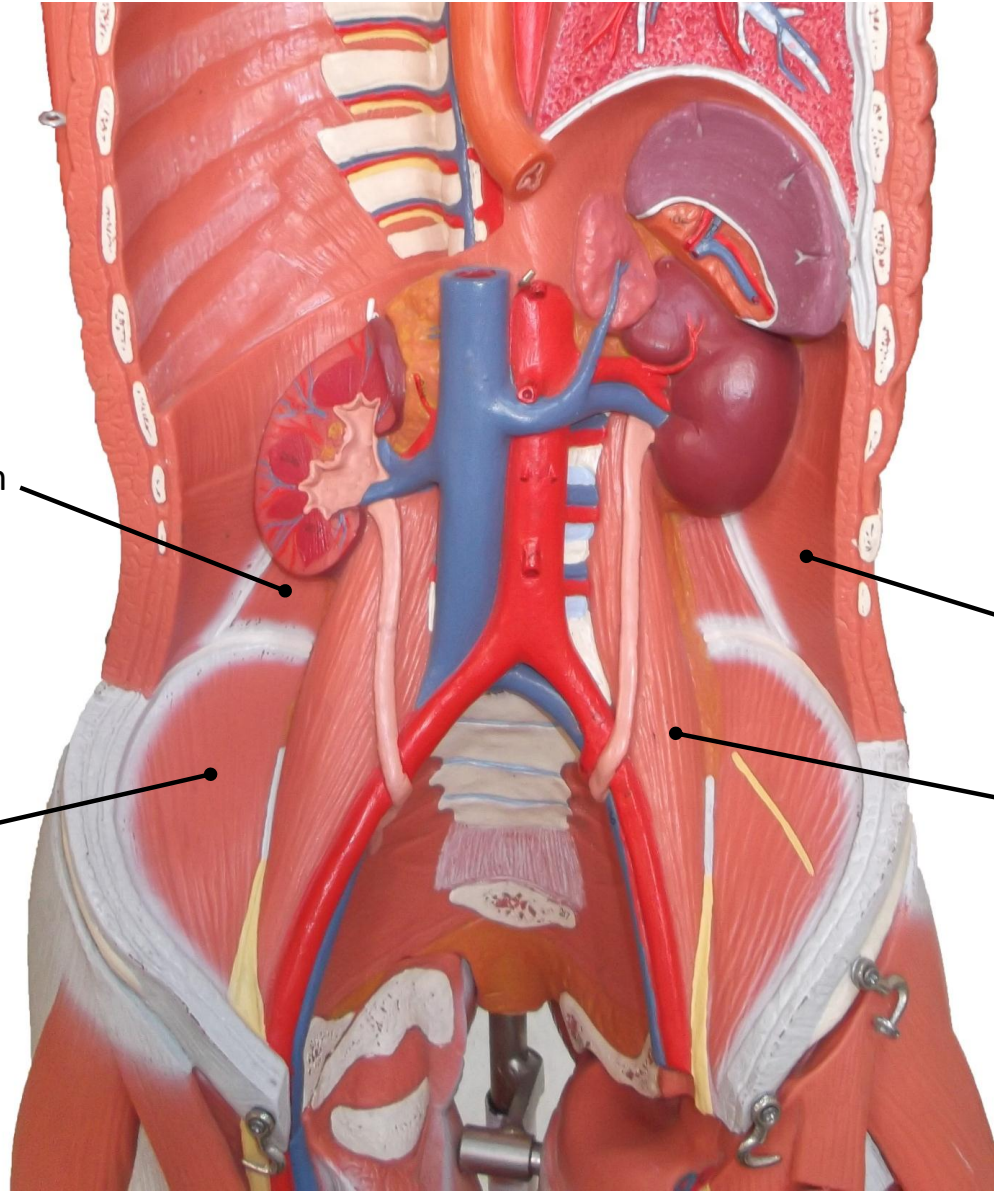

Transversus Abdominis

Iliacus

Psoas Major

موجوده بار skull

Occipitofrontalis  
(Frontal Belly) fleshy fibers

العضله الي بتفضل العين

Orbicularis Oculi:

1- Orbital Part

2- Palpebral Part

Orbicularis Oris

Hyoid Bone

Sternocleidomastoid  
(Sternomastoid)

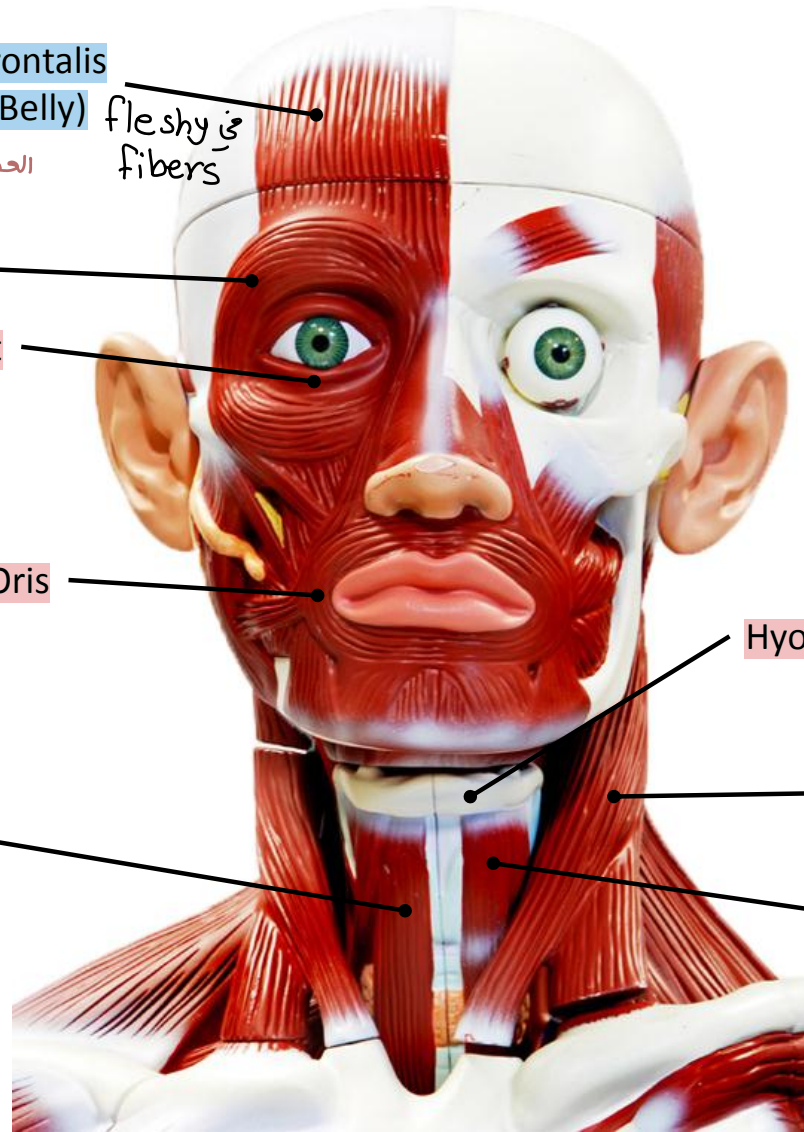

Right  
left

Sternohyoid

Thyrohyoid

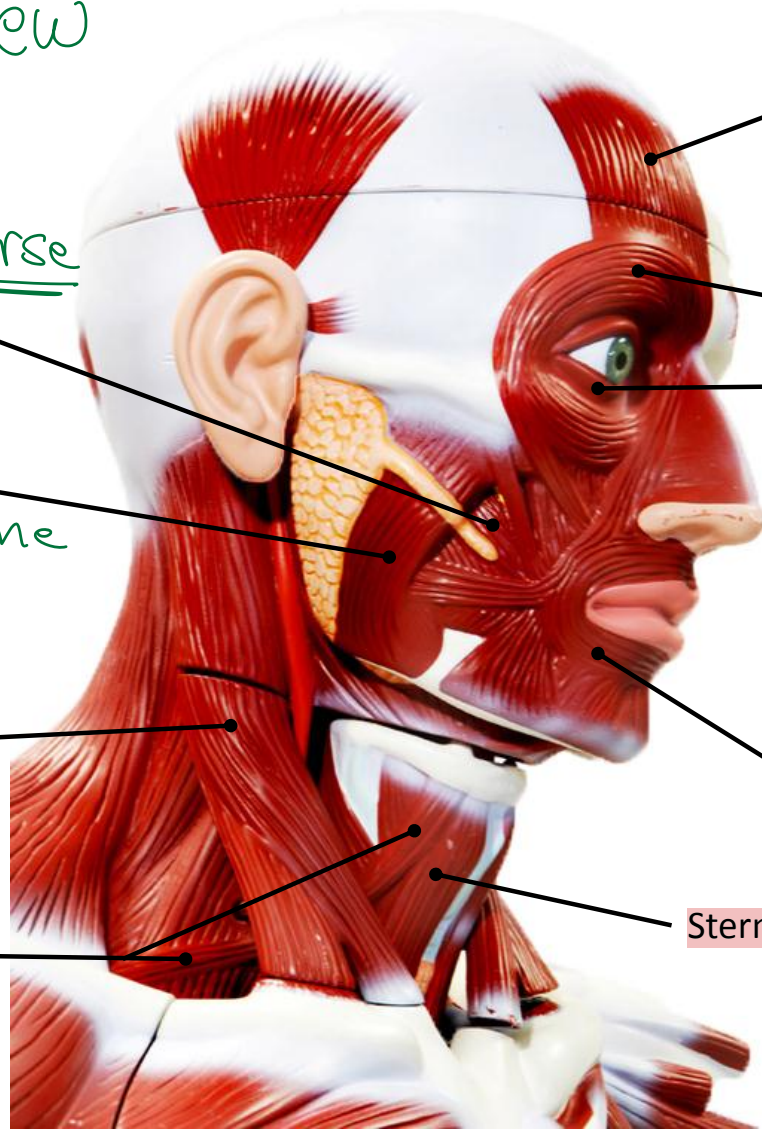

موجوده اسفل ال  
Sternohyoid

attached to the  
thyroid cartilage  
& Hyoid bone  
not from  
Sternum

side view

Occipitofrontalis  
(Frontal Belly)

Orbicularis Oculi:

1- Orbital Part

2- Palpebral Part

Orbicularis Oris

Sternohyoid

transverse

muscle of  
the cheeks

Buccinator

Masseter

Cover the ramus of the  
mandible

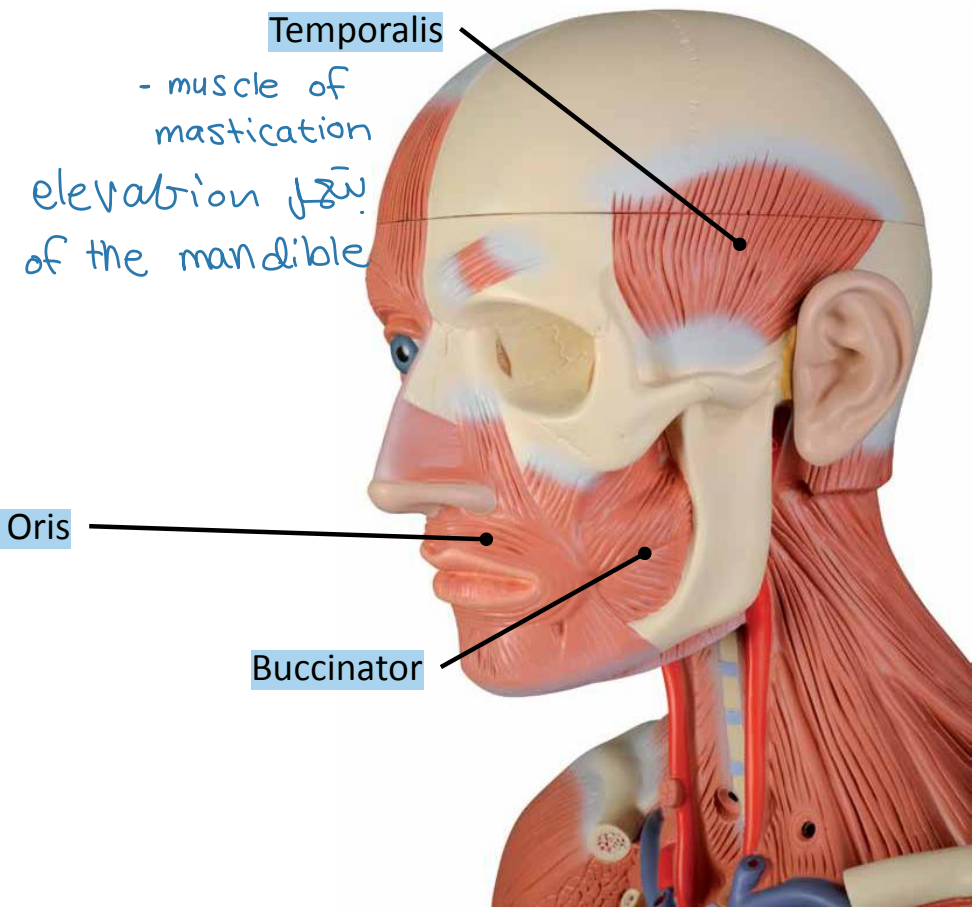

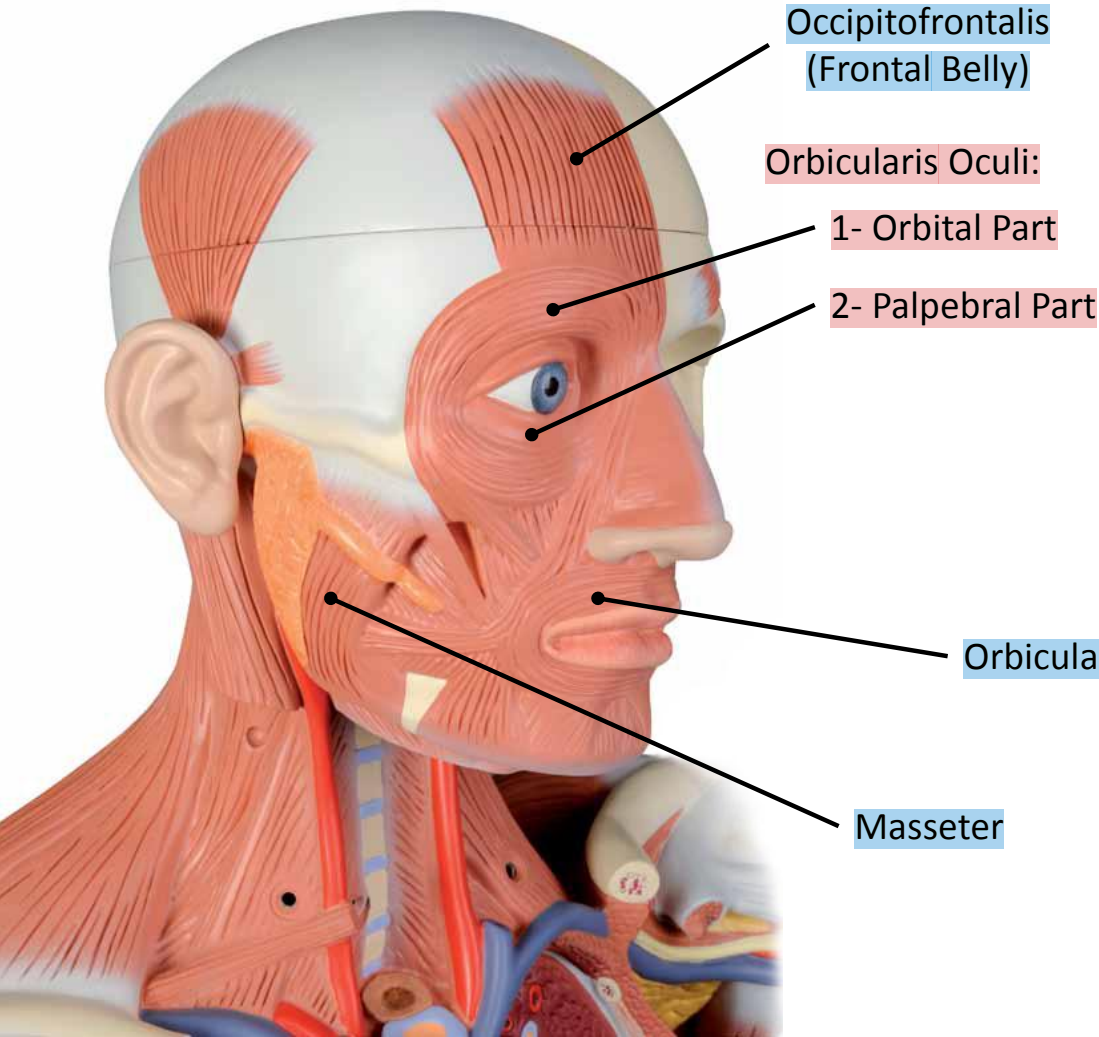

Sternocleidomastoid  
(Sternomastoid)

Start from mastoid  
& inserted in sternum

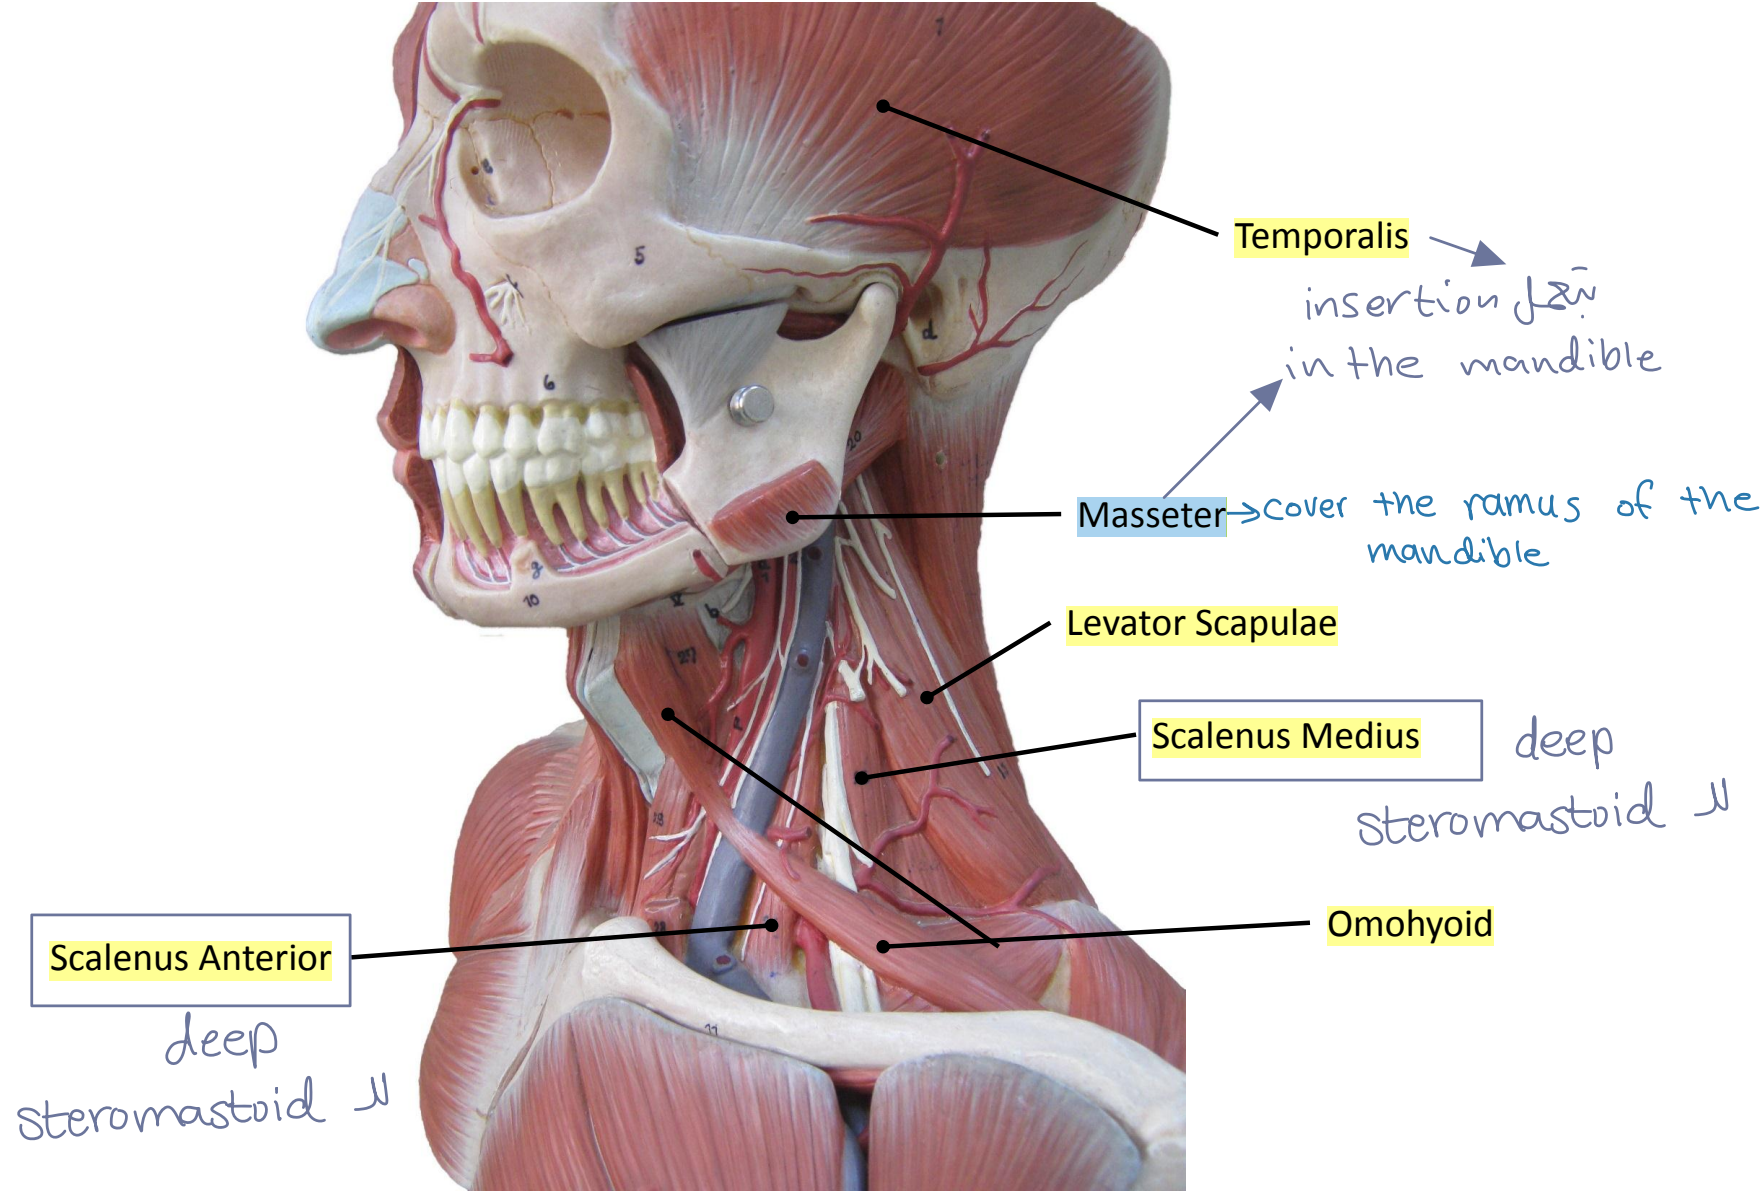

Omohyoid

Scapula جايه من ال

hyoid bone جايه من ال

Temporalis

insertion jaw  
in the mandible

Masseter

cover the ramus of the  
mandible

Levator Scapulae

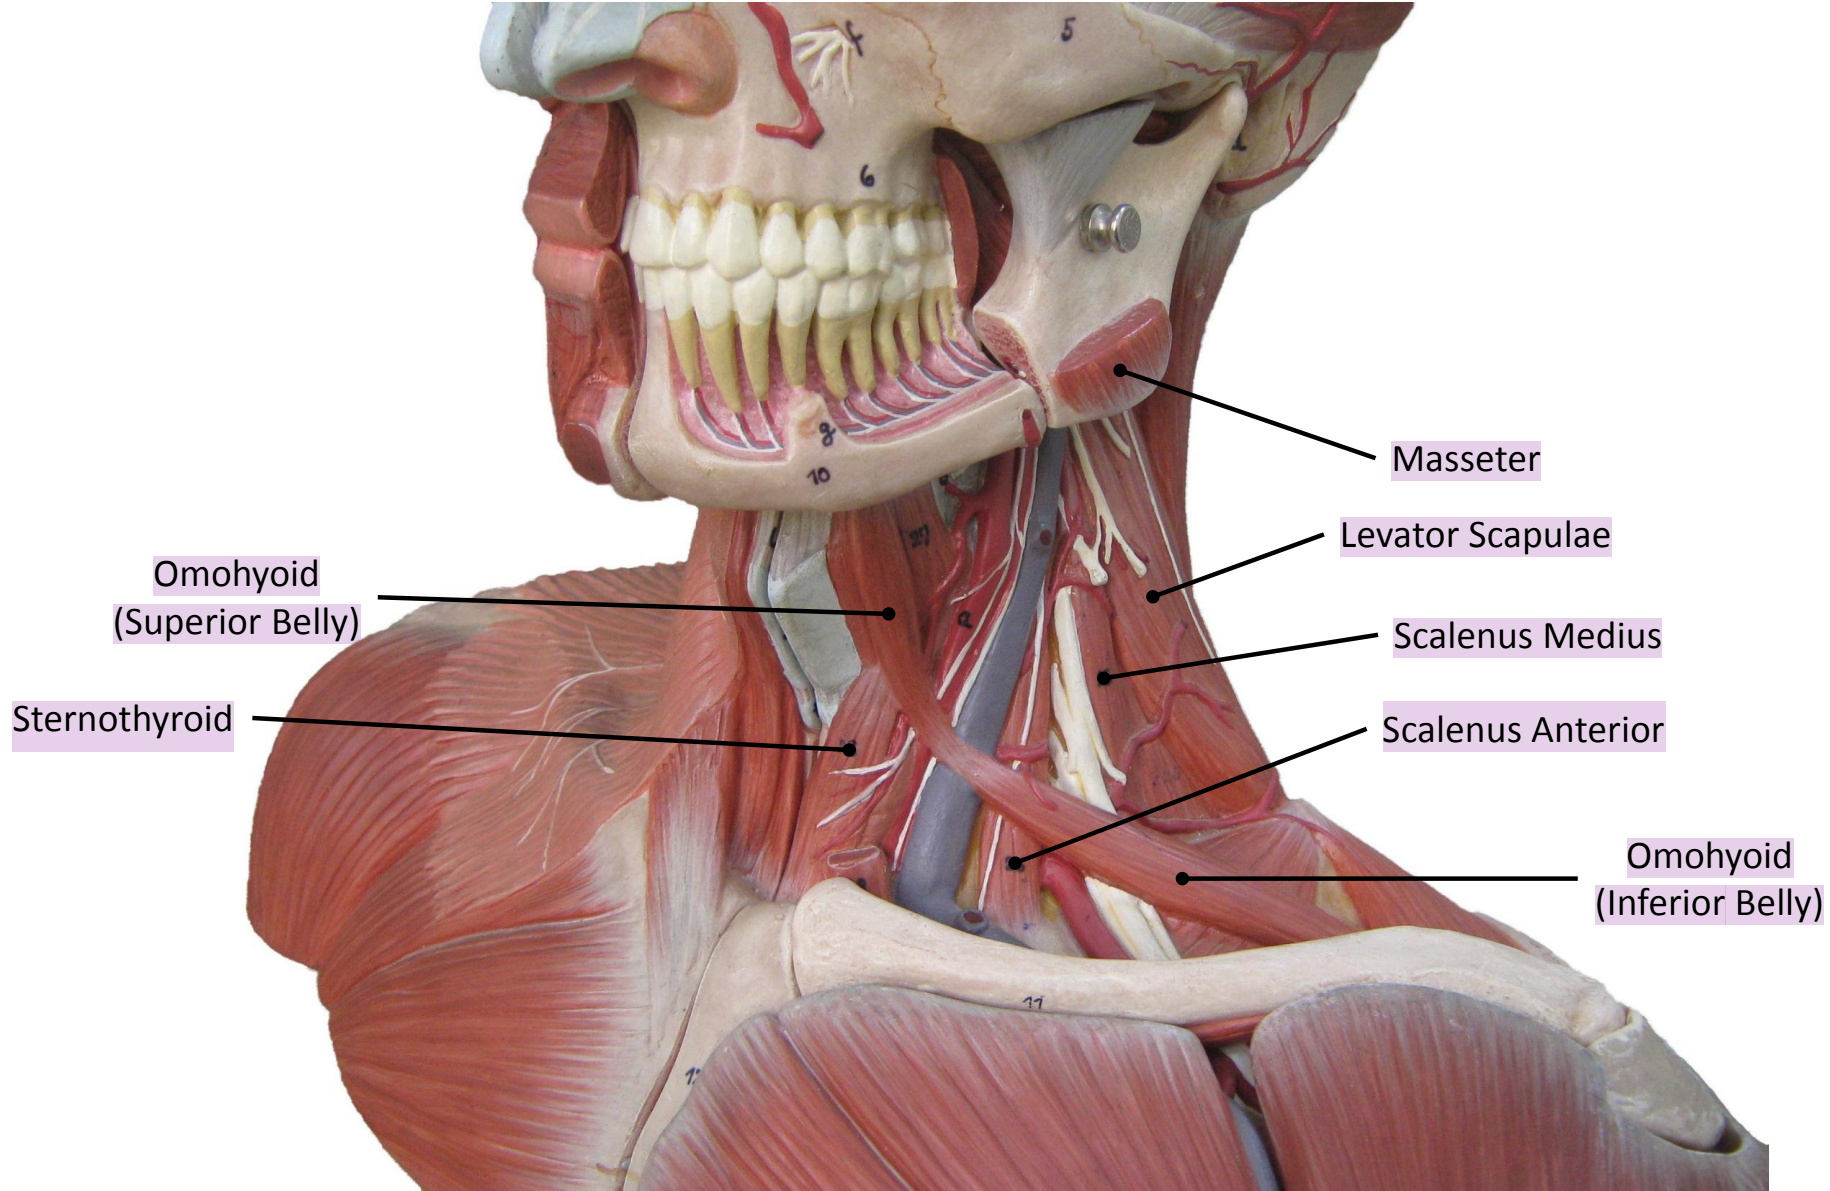

Scalenus Medius

deep  
sternomastoid //

Scalenus Anterior

deep  
sternomastoid //

Omohyoid

Masseter

Levator Scapulae

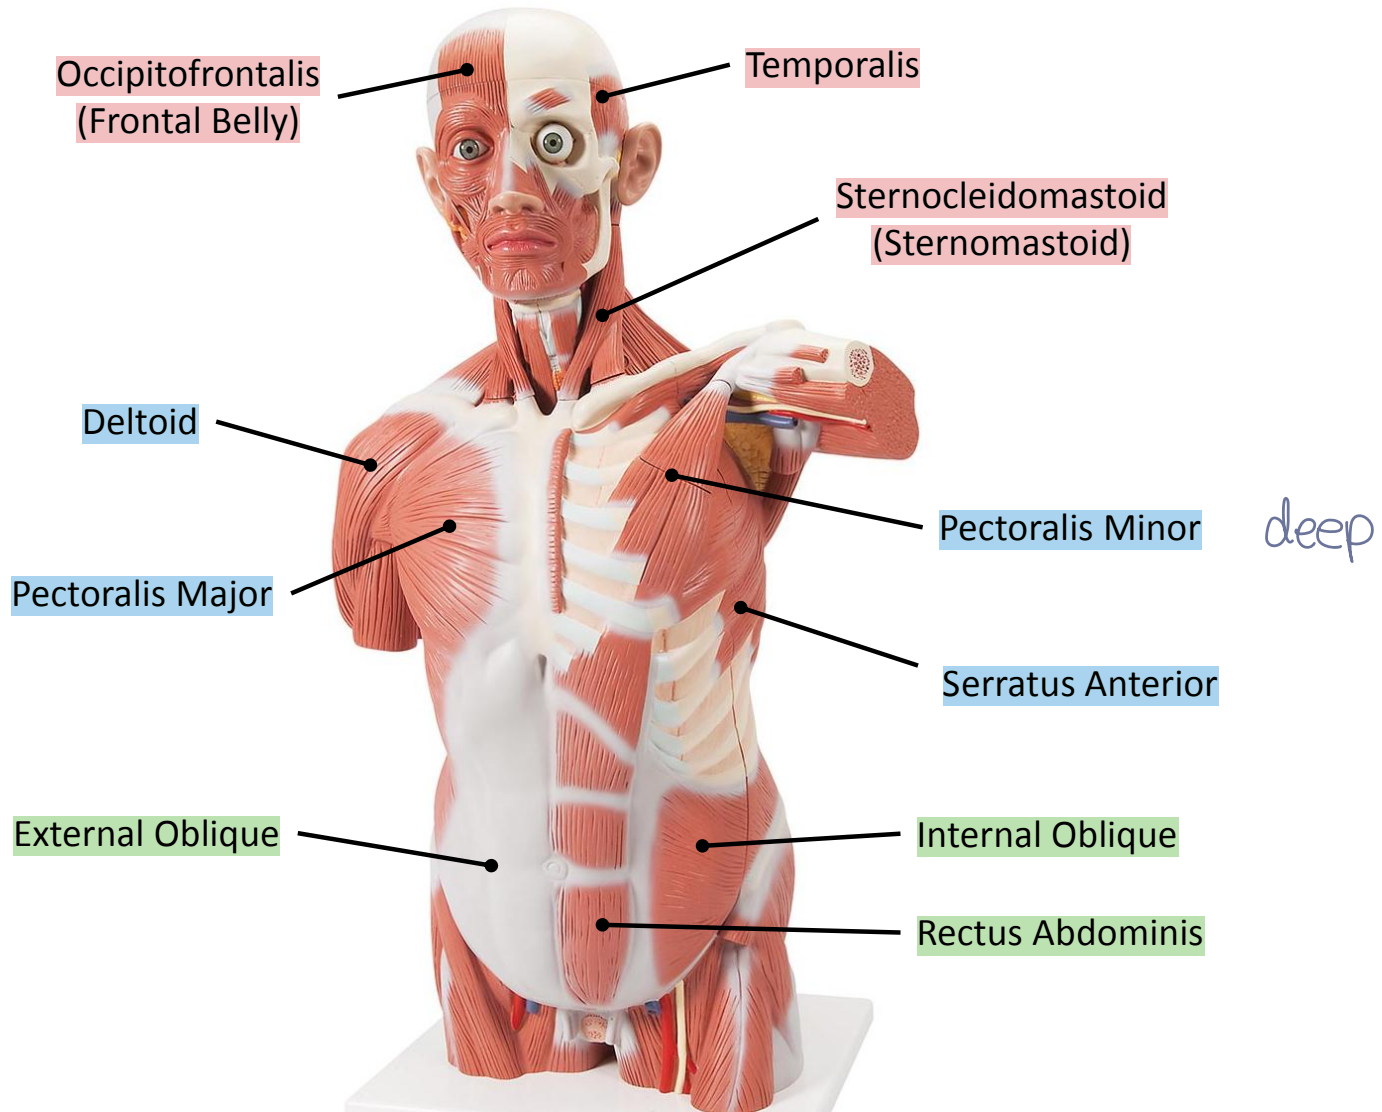

Scalenus Medius

Scalenus Anterior

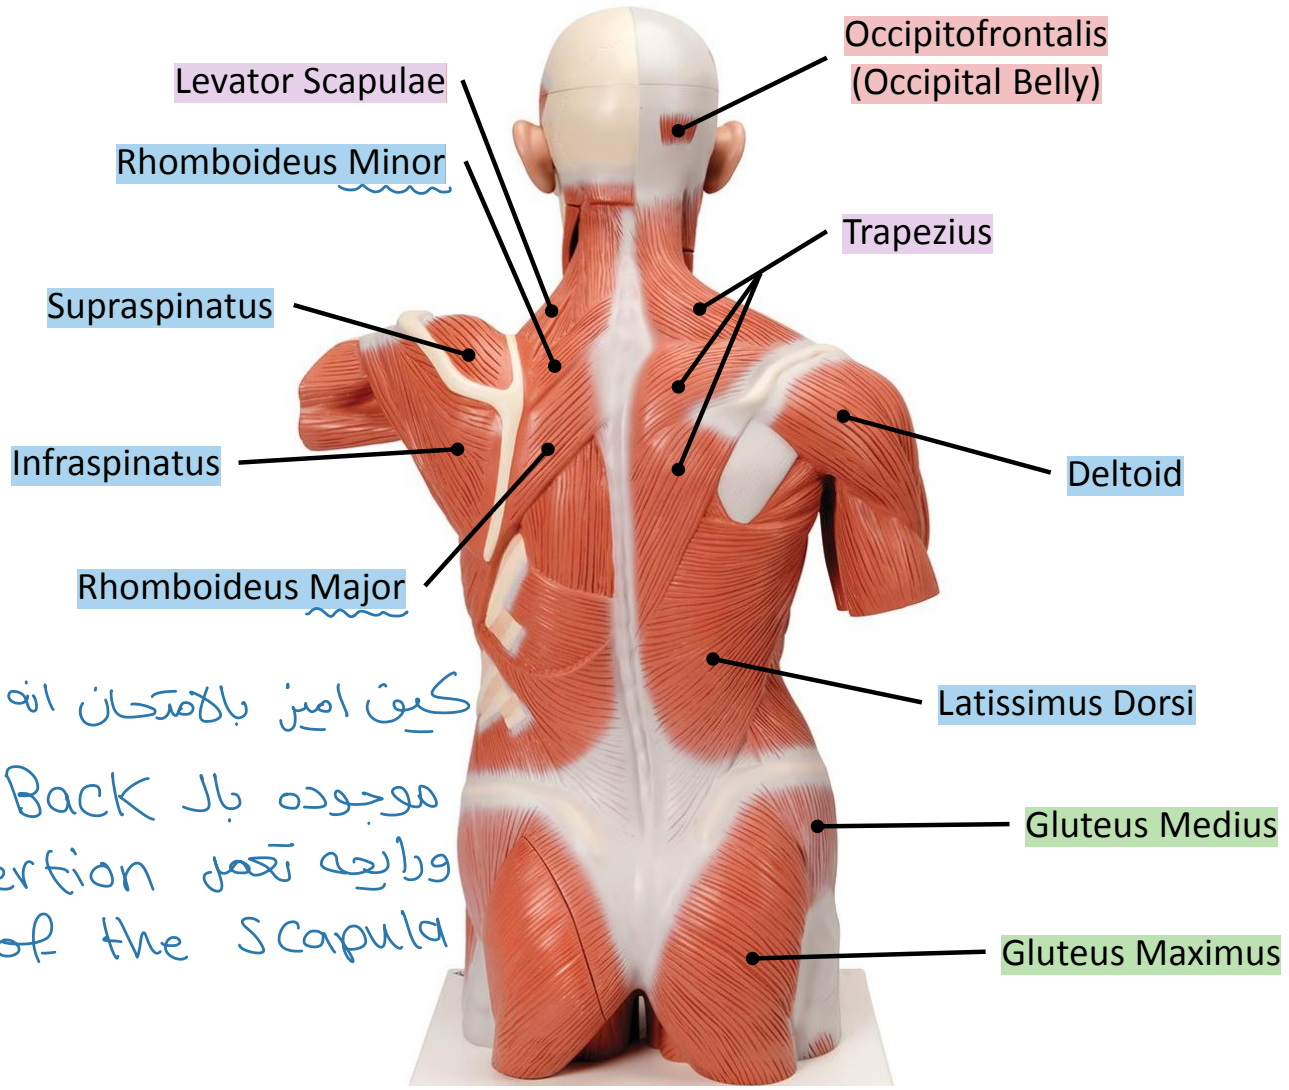

Omohyoid  
(Superior Belly)

Sternothyroid

Omohyoid  
(Inferior Belly)

Levator Scapulae

Rhomboideus Minor

Supraspinatus

Infraspinatus

Rhomboideus Major

Occipitofrontalis  
(Occipital Belly)

Trapezius

Deltoid

Latissimus Dorsi

Gluteus Medius

Gluteus Maximus

Rhomboideus Major / Minor  
كيف اميز بالاصحاح انه واحد من ال

موجوده بال Back  
ورايه تحصل insertion بال  
medial border of the Scapula
